National Press Release

Wednesday al.

WCED
Type: Enforcement

MILESTONE DESCRIPTION: The Director of the Waste and Chemical Enforcement Division will be signing an administrative Consent Agreement on behalf of the EPA in a Resource Conservation and Recovery Act case. If the Consent Agreement and proposed Final Order are ratified and issued by the Environmental Appeals Board, the settlement will resolve an enforcement action against Whole Foods for failure to make sufficient hazardous waste determinations, as well as failure to sufficiently manage universal waste at their retail grocery stores. Pursuant to the settlement, Whole Foods will pay a penalty of \$500,000, spend \$2.75 million towards a SEP, implement an enhanced hazardous waste management program, and retain an independent third party auditor to conduct a hazardous waste compliance audit of select Whole Foods stores.
